School Clinic

Every year the school is transformed into the most vibrant art gallery! It is one of our favorite times of year as the joy it spreads is contagious. You will see pupils proudly showing off their artwork to their parents, discussing their achievements, the materials used and how it linked into the unit they were studying. We have an array of materials and techniques used including painting; drawing; weaving; modelling; fabric dyeing to name a few, all arranged in the most artistic way by our talented staff. If you haven't had the opportunity to see the primary school art gallery before, be sure you don't miss it next year!

Mermaid & Pirates

Careers Day 2019

We celebrated our annual Careers day with an enviable line-up of events on 27th March this year. The program included an impressive list of specialist speakers who dazzled our students with their learning and experience in the real world. Our young listeners heard meaningful and personal stories of ordinary people who became highly successful at work. They learnt about risk-taking, failures and tales of resilience in the face of challenges. Pilots, entrepreneurs, patent lawyers, accountants, neuro-linguistic programmers, doctors and clinical psychologists were the motivational speakers during for the day, who regaled our students with chapters from their lives. They were funny and rich in meaning, so it is no wonder our students asked so many questions and simply refused to let them go.

Our little ones also delightfully dressed up as professionals - firefighters, doctors, police officers, chefs, Sports champions and more. Senior students heard about mental health and well-being, so they are now much better prepared for the big transition that is soon to be, life at University.

Careers day ended with another big event- a variety of interactive sessions with representatives from the best Universities of the world, in the 'Careers Fair', in our sports atrium. RWA students have first-hand information about the choices they could make for their future at University. Overall, the highly successful mega-event was abuzz with fun-filled activities.

We are grateful for the RWA careers counselling team, whose meticulous planning, coordinating, executing, inviting and welcoming guests was impressive. Thanks to Sulakshana, Shane, Prabha, Bushra, Reka,

Sajitha, Louise and Renu. Our grateful thanks also go to Tim, Sean and Armeena for making our speakers and parents so very welcome. Finally, the big highlight was our very own Abdullatif, who made event special by training senior students to go live on Twitter as the day unfolded. Our lovely students made us all very proud.

Go RWA!

Author's Visit

RWA library, in coordination with Sharjah book authority's school outreach programme organized the visit of **Jeffery Boston Weatherford** - A multi-talented children book illustrator and performance poet on 22nd April at RWA for our Grade 9 and Grade 10 students.

Author visits are impactful and inspirational. They touch the lives of students. They open minds and hearts. Through author visits, students learn that authors also struggle with formulating ideas, editing and revision, and accepting criticism. And authors also live in a world where a first draft is never a final draft and where the real writing takes place during the re-writing.

During his visit he talked about how we can develop the ability to express oneself through the art of rhythm, poetry and origin of hip hop.
